Staging cycle

Biennial

Co-located exhibition

MEDICAL FAIR ASIA

Visitor target groups

- Design engineers
- Engineers and technicians for R&D and production departments
- Heads of research and development departments
- Medical technology exhibitors from MEDICAL FAIR ASIA
- Packaging specialists
- Process engineers
- Production managers
- Qualification and validation specialists
- Quality assurance/quality control managers
- Technical procurement managers
- Visitors from industry and commerce

Main product categories

- Adhesives
- Assembly
- Assembly, automation and production technology
- Biocompatible materials
- Clean room technology/equipment
- Coating & functional surfaces
- Components
- Contract manufacture, design, construction, research & redevelopment
- Drug delivery
- Engineering
- Lab-on-a-chip
- Microactuators
- Microfluidics
- Microsensors
- Microstructuring
- Moulding equipment
- Nanomaterials
- New materials
- Packaging
- Plastics and elastomers, resins/ raw materials
- Precision processing
- Process technology
- Quality management
- Smart materials
- Sterilisation services
- System partnerships
- Testing equipment/services

Statistics 2022

Total exhibitors

100

Domestic **34**

Foreign **66**

Countries **18**

Total visitors

3,900

Domestic **2,457**

Foreign **1,443**

Countries **59**

Total net exhibition area (m²)

2,000

Economic data for Singapore

Future prospects for “Medical Technology”

Singapore has one of the best healthcare systems in the world and is willing to pay a quite a bit for it. Singapore’s medical technology industry is expected to continue to grow at a rate in double figures in the coming years. Numerous new hospital buildings – the government plans to provide up to 5,000 additional hospital beds and build a new national cancer centre by 2030 – as well as the aging population with its diseases are continuing to boost demand. The import quota remains high, so that international manufacturers of medical technology continue to enjoy excellent business opportunities.
