Mobile: +91 9999251621

**Staging cycle**  
Biennial

### Visitor target groups

- CEOs/GMs of hospitals/medical centres
- Medical directors
- Medical superintendents
- Hospital administrators
- GMs/HODs of purchase
- Technical and operations departments
- Security and emergency services
- Health and safety departments
- Officials from central public and health departments
- Biomedical engineers
- Construction and real estate
- Project management consultants
- Architects and planners
- Designers
- Directors of HR and nursing departments
- Deans of medical colleges/universities
- Heads of maintenance departments

### Main product categories

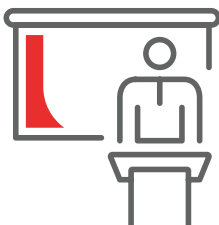

- Medical technology
- Medical equipments
- Medical consumables/medical disposables
- Hospital furniture
- Surgical instruments
- Laboratory and analytical equipment and products
- Life sciences, biotechnology and diagnostics
- Pharmacy and dispensary equipment and furniture
- HVAC
- Hospital & clinical equipments
- Rehabilitation
- Components
- Services
- Wireless health/mobile health
- Hospital infrastructure

## Statistics 2019

### Total exhibitors

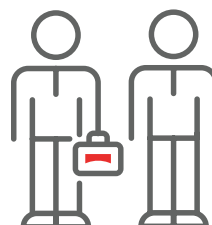

**516**

Domestic **260**  
Foreign **256**  
Countries **17**

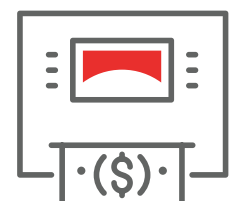

### Total visitors

**14,875**

### Total net exhibition area (m<sup>2</sup>)

**7,043**

# Economic data for India

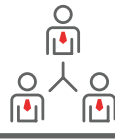

## Future prospects for "Medical Technology"

In the long term, India remains one of the fastest growing markets for medical technology worldwide. However, the healthcare system is currently inadequately prepared for the pandemic. There are too few testing stations, laboratories, quarantine facilities and intensive care beds with respiration equipment. Accelerated by the pandemic, India plans to set up an additional 3 million hospital beds by 2025, investing a total of around USD 200 billion in state hospital infrastructure. The market remains lucrative for international manufacturers, as the import quota for medical technology products remains at a high level of 70 percent.
