

# APOPSIS

## FACE & BODY

### 1. Technical Specifications:

Camera pixels:	1500W HD Lens
Screen /Tablet PC:	10-inch HD touch screen, 180° turnover ultra-sensitive touch screen
Analysis speed:	30 seconds
Memory capacity:	28G
Power:	20W
Voltage:	85-246V/AC
Weight:	6,5KG
Size:	57×16×36cm

### 2. Technical Specifications:

Pixel:	12 megapixel HD Lens
Working mode:	computer with USB connect
Operating platform:	Win7 / Win8 / Windows 10
Power:	35W
Voltage:	110~220V/AC
Weight:	6KG
Size:	42cm×38cm×50cm

## FACE & BODY

Skin Care Starts  
From Accurate Analysis!

### A mirror of your skin health

Apopsis Skin Analyzer is a professional device, which adopts white and UV light sources. Spectral imaging technology help us to detect both surface and deep skin problems including pigmentation, wrinkle, pore, acne, moisture, sensitivity etc. Biofrequency Analysis in addition to photographic analysis is a based in independance, technology which is scanning the whole body that indicades the possible cause of the skin problems.

### Rebuild your skin health

Gnosi can detect totally 9 skin problems:

- 1) Aging
- 2) Spots/Pigmentation
- 3) Pores
- 4) Wrinkles
- 5) Texture/Roughness
- 6) Sensitivity
- 7) Moisture
- 8) Porphyrin
- 9) Acne

### Skin Analysis & Biofrequency Analysis Programme

Skin is our biggest and most important organ of our body. Detailed clinical and molecular analysis of the epidermis, dermis and inner body is obtained by Apopsis.

Biofrequency analysis, on molecular level, gives detailed information on lack of vitamins, elements and minerals. It help us to find out the cause of any skin problem and design the proper protocol. We know what your skin real needs for every-one individually.

Apopsis can offer accurate treatment suggestion for everyone individually, giving the proper protocol for the best results.

### Advantage of Apopsis skin analyzer

- Analysis for epidermis, body dermis, intracellular and extracellular matrix etc
- Easy and convenient for operator
- Quick and safe
- No limit of database
- No extra consumable
- Quality photos
- Free update software
